

COMMENTS BY DISSERTATION ADVISOR

(For the approval of the Doctor of Ministry Degree at San Francisco Theological Seminary)

“This study is so important and well-done that it should be in the hands of every clergy and laity in every church. The portion of the dissertation on the scripture can be useful for clergy who wish to preach on the topic of homelessness. Other portion of the study will be useful to social action committees in the church or in the community. It is a valuable study to solve the pressing problem of homelessness in our world.”
